

How to Write a Fairy Tale

Click [here](#) to watch an excellent video that explains the key elements of a fairy tale.

1. You need a classic beginning.

Once upon a time...

In a country far,
far away...

2. Then you have to find a hero...

the curious girl

the anxious boy

the naughty chameleon

your hero will be your senior buddy

3. Create a plot.

The curious girl.

...found a key...

tested it.

and became queen.

After that she saved
the land from the monkeys.

4. Mix reality and fantasy.

The girl can read minds.

Monkeys rule the land.

The old trees are sad
and lose their leaves.

5. A fairy tale always has a happy end.

The people love their new queen.

The monkeys live in
peace with everybody.

And if they haven't died, they're still alive today.
